HOW TO HOLD THE LITTLE TIKES® TYRE RACERS™

DON'T HOLD LIKE THIS

DON'T grip the tyre so that the outer color stripe is prevented from moving.

DO HOLD LIKE THIS

DO grip the sides of the tyre so that the outer color stripe can move freely when revving .

HOW TO REV THE LITTLE TIKES® TYRE RACERS™

- Grip the tyre as shown under the ***DO*** HOLD LIKE THIS section above.
- Rest the tyre on a flat, smooth surface with the outer color stripe touching the surface.
- Push the tyre approximately one foot along the flat surface, lift and repeat a total of five times in quick succession to rev it up (increase the turning speed of the color stripe).
- On the fifth and last push double the distance of the rev and release the tyre by pushing forward.

IMPORTANT NOTES:

- The tyre must remain vertical to the surface at all times.
- The faster the tyre is spinning when released the farther it will travel.
- The tyre can also be played with without revving by simply rolling it up, down and across surfaces of all kinds.
